Notes and Additional Terms:

License Parameter. "License Parameter" means the definition and limitation of Customer's permitted scope of use for a Product or Service. If Customer's usage exceeds the License Parameters set forth herein, then Customer shall pay the applicable additional fees based on Return Path's then-current price list or as agreed to within this Insertion Order. An "Event" as used herein shall mean any mailing to the supplied Inbox Preview or Inbox Monitor seed address(es).

- I. Email Optimization Platform.** The Email Optimization Platform provides visibility into whether an email campaign will trigger spam filters; notifies Customer when any relevant IP addresses ("IPs") have been placed on a blacklist; checks Customer's delivery rates at the top global Internet Service Providers ("ISPs"); and provides reporting on Customer's sending reputation. Email Optimization Platform includes the following solutions:

Email Optimization Platform License Parameters Table

Solution	Quantity	Units of Measurement
Inbox Monitor	60 per month	Events
Inbox Preview	25 per month	Events
Email Client Monitor	2000000 per month	Pixels
Reputation Monitor	3	IPs

- A. Inbox Monitor** – Inbox Monitor tracks deliverability of Customer's campaigns at the major North American and international ISPs.
- B. Inbox Preview** – Inbox Preview identifies rendering and delivery problems prior to launching campaigns.
- C. Email Client Monitor** – Email Client Monitor provides tools so that Customer can learn about the platform (e.g., desktop, web mail, mobile), geolocation data (through consumer IP addresses), email client, and browser used by Customer's subscribers during email campaigns. Email Client Monitor uses web beacons to gather information about

the users' habits that are only triggered as long as images are displayed within the emails of Customer's email subscribers. Customer agrees to use web beacons only for legitimate purposes with the knowledge of the users concerned. Customer shall comply with any applicable laws and regulations, use commercially reasonable efforts to follow best industry practices that apply to Customer's use of web beacons, and ensure that appropriate notice, choice, consent and other requirements for use of web beacons are complied with all in accordance with applicable laws and regulations.

- D. Reputation Monitor** – Reputation Monitor enables Customer to monitor and understand what reputation issues are impacting deliverability. Using raw ISP data, Customer will be able to track and monitor how its IPs are performing across 8 key reputation measures that ISPs use to make filtering decision. A composite reputation score ("Sender Score") will be generated for all IPs for which Return Path has data. Customer must coordinate adding the IPs Customer wishes to track with Customer's Account Manager in order to use Reputation Monitor.
- E. Overages.** As of the Insertion Order Effective Date, campaigns in excess of the License Parameters for Inbox Monitor and Inbox Preview are billed at \$25 per Event. Customer's usage in excess of the License Parameters for Reputation Monitor is billed at \$25 per IP (as defined below) address per month. For Email Client Monitor, Customer's usage in excess of number of pixels per month set forth in the License Parameters table above will be billed at one dollar (\$1.00) per one thousand (1,000) pixels per month.

II. Onboarding and Account Management Services

Return Path Platinum Plus Account Management Services. In addition to the Email Optimization Platform, you will receive the following:

- A. Account Management.** You will also have a dedicated Account Manager to provide the following services and support:
- Support using EO Platform
